

“God demonstrates His own love for us in that while we were still sinners, Christ died for us.”

Romans 5:8

Spring has sprung! The sun is shining and the flowers are blooming (well, not yet, but soon). What a wonderful time of year. To be outdoors again feels like a new beginning. To welcome the new weather, to say goodbye to the cold winter and to know that we are coming to the end of the pandemic, lets us know that we are blessed. God is good.

We are so thankful for our students, staff, and dedicated teachers. Through these most difficult of times, they have persevered. We thank you and bless you.

In just a few days, we will celebrate the “Risen Christ”, who died for us and rose again, defeating death so that all of us through Him can know everlasting eternal life in His presence. Wow, praise the Lord!

Stay the course, we’re not “there” yet, but we soon will be. We so look forward to spending time together with you, friends, and family without the concerns associated with this pandemic.

Be well and be blessed my precious Meadow Green family.

Georganne MacKenzie

Easter Food Drive

Please support the MGA Easter Food Drive that will take place March 16th to April 1st.

Celebrating Easter Through Art

The Grade 1 students celebrated Easter by beautifully colouring images of Jesus arising from the tomb. Excellent job!

St. Patrick's Day

The Grade 3 class celebrated St. Patrick's Day with a game of 'Lucky Charms' bingo using the pleasantly delicious cereal as bingo chips! Very "clover" Grade 3s.

100th Day of School

The JK students celebrated the **100th** day of school in style by creating decorative plates and paper crowns. Fantastic work!

Snow Structures

The Grade 2 students worked as a team to create a snow wall structure at the Queensway Campus. Excellent work.

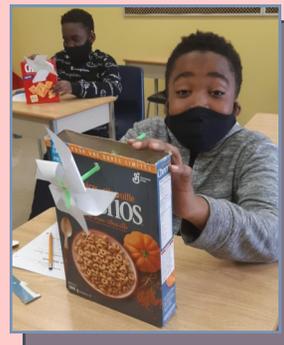

Enjoying Grade 4

The Grade 4s have thoroughly enjoyed their return to school since mid-February. A few memorable moments for the class have been: investigating geometric shapes in math, celebrating St. Patrick's Day and enjoying the last snowfall by creating tiny snowmen!

Science in Action

The Grade 5s had fun exploring the various sources of renewable energy in science class. A notable project by the class: creating wind turbines out of cereal boxes. Amazing!

Dates to Remember

April 2-5	Easter Break (no school)
April 12-16	March Break
May 19,20,25	G6-8 Exam Review
May 21-24	Victoria Day Holiday (no school)
